I apologize for not having author names for these books, but I do know they are the exact titles. A lot of the books above can be found through either the King or Snohomish county library systems. Also, you can typically find any of these books, on certain days, through Amazon.com super cheap.

Also, this is not by any means an all out exhaustive list of books for reading, just a beginning. With that, it is also not meant to over burden parents with "one more thing", just another avenue to keep kids reading!

Happy Trails,
